

AMENDMENTS TO THE CLAIMS

The following Listing of Claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (currently amended): A device ~~Device~~ for gaseous enrichment of fluids, comprising
a container for a fluid;
means for supplying a gas to the container;
means for supplying the fluid to the container; and
a fluid outflow;

wherein at least one of the means for supplying the gas and/or and the means for supplying the fluid are provided with multiple sieve-like perforations forming output openings comprises tubular perforated output portions.

wherein the container comprises a plurality of volumetric portions and a plurality of walls between the volumetric portions, the walls including a plurality of differently sized perforations between the volumetric portions.

Claims 2-3 (canceled)

Claim 4 (currently amended): The device ~~Device~~ for gaseous enrichment of fluids according to of claim 3 1, wherein comprising at least two sorts of walls, the walls comprising a plurality of different perforations, ~~with different, multiple, sieve-like perforations are provided, these said walls being spatially arranged in an alternating manner within the container.~~

Claim 5 (currently amended): The device ~~Device~~ for gaseous enrichment of fluids according to of claim 1, wherein the means for supplying the fluid or gas have portions designed in multiple comprise a plurality of layers and perforated with multiple, sieve-like a plurality of perforations, which are different from layer to layer, and which form said output openings.

Claim 6 (currently amended): The device ~~Device for gaseous enrichment of fluids according to~~
of claim 1, wherein the means for supplying the fluid or gas are designed in a tubular form, and
the portions, which provide multiple sieve-like perforations forming output openings, are
arranged in the casing of the tubes, and ~~otherwise wherein~~ no further output openings are
provided.

Claim 7 (currently amended): The device ~~Device for gaseous enrichment of fluids according to~~
of claim 1, wherein the container is ~~designed in~~ has a tubular form.

Claim 8 (currently amended): The device ~~Device for gaseous enrichment of fluids according to~~
of claim 1, ~~which is manufactured~~ wherein the device comprises largely from V2A steel.

Claim 9 (currently amended): The device ~~Device for gaseous enrichment of fluids according to~~
of claim 1, ~~which is manufactured~~ wherein the device comprises largely from electro-polished
steel.

Claim 10 (currently amended): The device ~~Device for gaseous enrichment of fluids according~~
~~to~~ of claim 1, wherein the container is pressure-tight.

Claim 11 (currently amended): The device ~~Device for gaseous enrichment of fluids according~~
~~to~~ of claim 1, ~~and including~~ further comprising means for cooling.

Claim 12 (currently amended): The device ~~Device for gaseous enrichment of fluids according to~~
of claim 1, wherein the means for supplying the gas ~~are designed~~ substantially ~~in the~~ has a form
~~of a~~ selected from the group consisting of cylinder, cone, spiral, ellipsoid, sphere, funnel, nozzle
or wave in the region around the gas output openings.

Claim 13 (canceled)

Claim 14 (currently amended): The device ~~Device for gaseous enrichment of fluids according to~~
of claim 1, wherein the means for supplying the gas ~~include~~ includes a manometer.

Claims 15-17 (canceled)

Claim 18 (currently amended): ~~A method Method for manufacturing fluids enriched with of~~
enriching a fluid with a gas to form a gas-enriched fluid, using a the device according to of claim
1, wherein a gas is added to a fluid.

Claim 19 (currently amended): ~~A method Method for manufacturing fluids enriched with of~~
enriching a gas using a the device according to of claim 1, wherein a fluid is supplied in a
continuous process for gaseous enrichment and flows out from the gaseous enrichment enriched
with gas.

Claim 20 (currently amended): ~~Use of the device according to claim 1 for the manufacture of~~
~~medicinal preparations.~~ The method of claim 18, wherein the gas-enriched fluid comprises a
medicinal preparation.
